§ 245.101 *Administration.* The program will be administered in the field by the county agricultural conservation committees under the general supervision of State PMA committees. Forms may be obtained from county agricultural conservation committees or from State PMA offices, addresses of which are listed in 11 F. R. 177, Part 2 (177A-285). State and county committees will determine the eligibility of the potatoes, the grade and quality, and the amount of the loan. All loan documents will be completed and approved by the county committee, which will retain copies of all documents. The county committee may designate in writing certain employees of the County Agricultural Conservation Association to execute such forms on behalf of the committee. The county committee will furnish the borrower with the names of lending agencies approved for making disbursements on loan documents. In case the borrower desires to obtain a direct loan from CCC, he shall deliver the loan documents to the county committee for transmittal.

§ 245.102 *Availability of loans.* Loans will be available in all areas of the continental United States. Loans will be available from September 15, 1947, through December 31, 1947, inclusive.

§ 245.103 *Approved lending agencies.* An approved lending agency shall be any

bank, cooperative marketing association corporation, partnership, individual, or other legal entity with which CCC has entered into a Lending Agency Agreement (Form PMA-97) or other form prescribed by the Administrator of PMA.

§ 245.104 *Eligible borrowers.* An eligible borrower shall be (a) any person, partnership, association or corporation that has executed an application and certificate of eligibility (Form 47-Potatoes-4) whose eligibility to participate in 1947 potato price support operations has been certified by the appropriate County Agricultural Conservation Committee, and whose certificate of eligibility is in full force and effect (hereinafter referred to as "eligible producer") or (b) any dealer or association of producers that has become eligible to participate in the 1947 potato price support program on a contract basis by means of executing a Dealer Agreement (Form 47-Potatoes-7) which has been approved by CCC and is in effect.

§ 245.105 *Eligible potatoes.* (a) Eligible potatoes shall be 1947 crop potatoes produced by eligible producers which are of a quality suitable for storage and are properly stored in permanent storage which meets specifications established by the State committee. Potatoes containing more than 2 percent soft rot or more than 3 percent dry rot including late blight shall not be eligible for loan. In order to make certain that the potatoes are of a quality suitable for storage, county committees may require that the potatoes remain in storage for a specified period prior to inspection and approval for loan.

(b) The potatoes offered as security for a loan must be free and clear of all liens, or if lien exist appropriate waivers must be obtained.

§ 245.106 *Applications, period for making loans, maturity date and interest rate.* (a) Applications for loans shall be made at the office of the County Agricultural Conservation Committee for the county where the potatoes are stored.

(b) Applications for loans may be accepted between September 15, 1947, and December 15, 1947. However, since all loan documents must be completed not later than December 31, 1947, the State Committee shall, if necessary, set a final date for accepting applications sufficiently in advance of December 15, 1947, in order that all inspections of potatoes and the approval of all loan documents will be completed by December 31, 1947.

(c) At no time shall loan documents be approved if the value of the collateral has been impaired. Loan documents shall not be approved after the expiration of the 20 calendar day period following the date of inspection of potatoes offered as collateral unless the county committee first determines that the potatoes so offered are intact and that their value is unimpaired. In the event the potatoes are destroyed or their value is impaired after the loan documents are approved, but before the loan is completed, the loan documents shall not be eligible for disbursement. All loans shall mature on demand but not later than

April 30, 1948, and will bear interest at the rate of 3 percent per annum from the date of disbursement.

§ 245.107 *Approved forms.* The approved forms constitute the loan documents which, together with the provisions of this bulletin, govern the rights and responsibility of the borrower and of CCC, and should be read carefully. Any fraudulent representation made by a borrower in obtaining a loan or in executing any of the loan documents will render him subject to prosecution under the United States Criminal Code.

(a) Applications for loan shall be submitted on Commodity Loan-3 (Potatoes)

(b) Each loan shall be evidenced by a promissory note executed by the borrower on CCC Commodity Form A.

(c) Each loan shall be secured by a chattel mortgage executed by the borrower on CCC Commodity Form AA.

§ 245.108 *Amount of loan.* The amount of the loan shall be computed in accordance with the 1947 schedule of Loan Rates set out in § 245.117 on the quantity of U. S. No. 1 quality potatoes in the unit at the applicable loan rate for U. S. No. 1 potatoes, plus the quantity of U. S. No. 1 size B and U. S. No. 2 (1½ inches minimum) quality potatoes in the unit at the applicable loan rates for U. S. No. 2 potatoes.

§ 245.109 *Storage charges.* All storage costs shall be assumed and paid by the borrower.

§ 245.110 *Service fees.* A service fee shall be charged for each loan in the amount of one cent per hundredweight for each hundredweight of potatoes placed under loan but not less than \$5.00 for each loan. Part of the service fee (one-half cent per 100 pounds of the potatoes which it is estimated will be placed under loan, but not less than \$5.00) will be payable at the time application is made for a loan, and will be unreturnable even though the loan is not completed. The balance of the service fee, if any, shall be collected from the proceeds of the loan.

§ 245.111 *Set-offs.* If the applicant is indebted to CCC (other than a current loan which has not matured), or if the applicant is listed on the county debt register as being indebted to any Government agency, the loan shall not be approved unless the applicant designates the United States or the agency thereof to which he is indebted, as the payee of the proceeds of the loan to the extent of such indebtedness not to exceed that portion of the proceeds remaining after deduction of (a) the amount due for service fees, (b) amount designated to be paid prior lienholders. Paragraphs (a) and (b) of this section, outstanding indebtedness to CCC shall have priority.

§ 245.112 *Insurance.* The borrower shall not be required to carry insurance on the collateral. However, in case of an uninsured loss CCC will assume such loss only to be the extent of any resulting deficiency on the loan, and only in the case of losses due to flood, fire, lightning, or windstorm of which the borrower has given the county committee imme-

diate notice in writing, and to which his fault, negligence or conversion has not been a contributing factor.

§ 245.113 *Settlement of loans.* (a) The loan shall be satisfied, on or before the maturity of the note, by payment by the borrower of the principal amount plus interest. Repayment may be made to the lending agency, or, if the note is held by CCC, to the county committee. Upon full repayment of a loan, the county committee should be requested to release the mortgage by filing an instrument of release or by a marginal release on the records of the county recording office.

(b) The borrower may, prior to the maturity of the loan, make partial redemptions of the potatoes in order to sell them in commercial markets by payment of such portion of the loan plus interest as is equal to the amount of the gross proceeds to be received from the sale of the potatoes (less approved charges for marketing services performed) or the loan value of the potatoes to be redeemed plus interest, whichever is greater.

(c) The borrower shall apply on the loan in repayment thereof all of the net proceeds (gross proceeds less approved charges for marketing services performed) accruing to him from the sale to CCC of any potatoes owned by him, whether or not such potatoes are collateral security for the loan.

§ 245.114 *Deficiencies due to flood, fire, lightning or windstorm.* CCC will not make any allowance for loss in the quality and quantity of the potatoes which results in a deficiency on the loan, except that uninsured physical loss or damage occurring without fault, negligence, or conversion on his part and resulting solely from flood, fire, lightning, or windstorm shall be assumed by CCC to the extent of the deficiency which results after the application of all of the net proceeds of undamaged potatoes covered by the mortgage or the loan value thereof plus interest, whichever is greater, plus the net proceeds from the salvage of the damaged potatoes and any insurance proceeds inuring to the benefit of CCC. In cases where such losses are covered by insurance, the borrower, after the proceeds from salvage have been applied on the note, shall have first claim on the proceeds of any insurance claim to the extent of his equity in the damaged potatoes (market value or support value, whichever is higher, of the potatoes, less the part of the unpaid balance on the note represented by the damaged potatoes). The balance of the proceeds from the insurance claim, if any, shall be credited in payment of the note.

§ 245.115 *Loans in default.* If the borrower has made any fraudulent representation in the loan documents or in obtaining the loan, or abandons or fails to safeguard the potatoes, or fails to comply with the terms and conditions of the 1947 potato price support program (thereby rendering his note immediately due and payable) or other-

wise causes CCC to remove the potatoes or to foreclose the mortgage, he shall be given credit for such potatoes as are removed or foreclosed at the best price obtainable by CCC, less necessary costs and expenses incurred, and shall be liable for any deficiency which results.

§ 245.116 *Purchase of notes.* CCC will purchase from approved lending agencies, notes evidencing approved loans which are secured by chattel mortgages. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus accrued interest from the date of disbursement to the date of purchase at the rate of 1½ percent per annum. ## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Docket No. 8308]

#### PART 8—SHIP RADIO SERVICE

##### SHIP RADAR INSTALLATIONS

In the matter of amendment of Part 8 of the Commission's rules and regulations governing ship service to establish the ship radar station as a new class of station within the ship service.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 16th day of October 1947.

The Commission having under consideration the matter of the amendment of Part 8 of the Commission's rules governing ship service in order to establish ship radar stations as a new class of station within the ship service; and

It appearing, that on April 30, 1947, general notice of proposed rule making with respect thereto was published in accordance with section 4 (a) of the Administrative Procedure Act; and

It further appearing, that comments and recommendations pertaining to the proposed rule changes were filed with, and carefully considered by, the Commission; and

It further appearing, that some of the recommendations were adopted and others were rejected; and

It further appearing, that in order to reduce the frequency of renewals, it is desirable to establish a four year term for ship radar station licenses, but for

purposes of efficient administration it is desirable that the term of new ship radar station licenses shall be a flexible one of from one to five years as the Commission shall in each case determine; and

It further appearing, that sufficient information is available to demonstrate the effectiveness of ship radar installations as an aid to the promotion of safety of life at sea and warrant the licensing of ship radar stations on a regular basis rather than only in the Experimental Service as has been done heretofore, thus enabling users of shipboard radar to plan such use on a permanent rather than a tentative basis;

It further appearing, That public interest, convenience and necessity would be served by adoption of the proposed rules as set forth in the Appendix attached hereto:

It is ordered, That effective December 10, 1947, Part 8 of the Commission's rules and regulations governing Ship Service, be amended as set forth below.

(Sec. 303 (b) (c) (e) (f) (j) 48 Stat. 1082, 303 (r) 50 Stat. 191, 47 U. S. C. 303 (b) (c) (e) (f) (j) (r))

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] T. J. SLOWIE,  
Secretary.

1. Sections 8.20 and 8.21, respectively, are amended by inserting a footnote designated as "2a" after the term "maritime mobile service" in § 8.20 and after the term "ship service" in § 8.21, which footnote shall read as follows:

<sup>2a</sup> The term does not apply to the use of radar installations on board ship except where radar is specifically mentioned.

2. The following new rules governing Ship Radar Stations are added, reading as follows:

##### SHIP RADAR INSTALLATIONS

§ 8.195 *Requirements for ship radar installations.* In addition to other applicable rules and regulations ship radar installations shall be governed by the following:

(a) *Definition.* The term "ship radar installation" or "ship radar station" as used herein means a radio station located on board ship licensed for the transmission of energy by radio for the purpose of automatically detecting land and other objects through the reception of the effects of such transmission, with a determination of their direction and distance.

(b) *Application for ship radar station licenses.* Applications for ship radar station licenses shall be made in accordance with the provisions of Part 1 of the Commission's rules and regulations.

(c) *Term of ship radar station licenses.* Except as provided in paragraph (m) (2) of this section:

(1) In order to achieve the scheduling of renewal applications, new ship radar station licenses will be issued to expire at 3 a. m., e. s. t., on a date one to five years from the date on which they become effective, as the Commission shall determine in each case.

(2) Ship radar station licenses normally will be renewed upon proper application, to expire at 3 a. m., e. s. t., on a date four years from the effective date from renewal.

(d) *Posting of ship radar station license.* The ship radar station license shall be posted in a conspicuous place at the principal radar operating position.

(e) *Station identification.* Section 2.65 requiring station identification by call letters shall not apply to ship radar stations. For administrative purposes, the call letters assigned to a ship radar station normally will be the same as the ship station call letters or ship signal letters.

(f) *Authorized emission for radar transmitters.* Any transmitter of a ship radar station which operates within a frequency band allocated in paragraph (g) of this section shall use special (pulsed) type of emission only.<sup>1a</sup>

(g) *Allocation of frequencies for ship radar stations.* The following frequency bands are allocated for use by ship radar stations:<sup>1b</sup>

3000 to 3246 Mc.  
5460 to 5650 Mc.  
9320 to 9500 Mc.

(h) *Frequency tolerance.* The frequency at which maximum emission occurs shall be within an authorized band, and any energy emitted outside the authorized band shall be attenuated to the extent necessary to prevent interference. Until such time as a determination is made as to the degree of attenuation which will be required, any radar transmitter which causes interference to other radio stations may, in the discretion of the Commission, be required to cease operation until appropriate remedial measures have been taken.

(i) *Frequency measurements.* The licensee of a ship radar station shall take the necessary measures to insure that the transmitter operates within the tolerance limits specified in paragraph (h) of this section.

(j) *Name plate on radar installation.* Each ship radar station installation the manufacture of which was completed on or after December 10, 1947, shall be furnished with a durable name plate with the manufacturer's name, transmitter model number, and month and year of completion of manufacture permanently inscribed thereon. Such name plate shall be affixed to the indicator housing at the principal radar operating position or to some other component of the radar installation which is readily accessible for inspection.

(k) *External adjustments.* Radar transmitters which have means available for external adjustments, the manipulation of which may cause operation not in accordance with paragraph (h) of

<sup>1a</sup> For the purpose of this part of the rules, the term "special (pulsed) type of emission" means radio frequency energy which is emitted in the form of short bursts of energy repeated at regular intervals, the duration of each burst being much shorter than the interval between bursts.

<sup>1b</sup> The associated transmitting frequencies of radar beacons (racons) are, respectively, as follows: 3256, 5450, and 9310 megacycles.

this section, will not be licensed in the ship service.

(l) *Design and construction.* The design and construction of radar equipment intended for licensing in ship service shall be such that, when properly installed, its use will produce no interference to the radio communication service of any ship.

(m) *Type approval of radar equipment.* (1) To determine the acceptability of radar equipment for licensing in the ship service, such equipment will be examined by duly authorized representatives of the Commission for compliance with the provisions of paragraphs (f), (g), (h), (j), (k) and (l) of this section, and if found in compliance therewith, appropriate type approval will be issued.

(2) Shipboard radar equipment installed on or before December 10, 1947, which does not meet the requirements specified in this section may be considered by the Commission for licensing in the ship service. However, a license issued in this case shall be valid for a period not beyond July 1, 1950 and under such other terms and conditions as the Commission may deem appropriate to assure non-interference to other services.

(3) After July 1, 1950, no shipboard radar equipment will be considered for licensing in the ship service unless such equipment has been given type approval as provided in this section.

(n) *Reports.* Until the Commission shall otherwise provide, the licensee, by such arrangement as may be necessary with the ship master, operating agency or ship owner, shall upon request of the Commission be responsible for the submission of such reports as may be required to show the value and performance of a ship radar station.<sup>10</sup>

##### NOTICE OF PROPOSED RULE MAKING

Notice of hearing on proposed finding and order relating to the employment of minors between 16 and 18 years of age in logging occupations and occupations in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill.

Whereas, pursuant to section 3 (1) of the Fair Labor Standards Act of 1938 (52 Stat. 1060, 1061, 29 U. S. C. 203 (1)) there has been issued Hazardous-Occupations Order No. 4, effective August 1, 1941 (6 F. R. 3148) as amended (7 F. R. 7198, 8 F. R. 8694, 9 F. R. 12579, 11 F. R. 177A-346, 11 F. R. 14728) providing that all occupations in logging and in the operation of any sawmill, lath mill, shingle mill, or cooperage-stock mill, excepting certain specified occupations, are particularly hazardous for the employment of minors between 16 and 18 years of age; and

Whereas, there is in effect a Procedure Governing Determinations of Hazardous Occupations (29 CFR 421), and

Whereas, pursuant to said Procedure, an investigation has been conducted for

the purpose of ascertaining the need for revision of Hazardous-Occupations Order No. 4; and

Whereas, a report of the investigation, entitled Occupational Hazards to Young Workers, Report No. 4C, Supplementary Investigation of the Logging and Sawmilling Industries, copies of which will be sent upon request directed to the Child Labor Branch, Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington 25, D. C., has been submitted to the Secretary of Labor, showing that:

1. Certain occupations in the logging of pulpwood, chemical wood, excelsior wood, cordwood, fence posts, or similar woods are sufficiently hazardous to warrant extending Hazardous-Occupations Order No. 4 to them; and

2. Certain of the occupations excepted from Hazardous-Occupations Order No. 4 for the duration of the war (29 CFR 422.4 (d)) are sufficiently nonhazardous to warrant permanent exception from said order; and

Whereas, the Secretary of Labor, under the authority conferred by section 3 (1) of the Fair Labor Standards Act and Reorganization Plan No. 2, effective July 16, 1946, pursuant to the Reorganization Act of 1945 (59 Stat. 613), proposes to issue a finding and order in the form set forth below,

Now, therefore, notice is hereby given of a public hearing to be held on December 3, 1947, commencing at 10 o'clock a. m. in room 3428, United States Department of Labor Building, 14th Street and Constitution Avenue, N.W., Washington 25, D. C., before a presiding officer to be designated hereafter, at which interested parties will be given opportunity to ap-

Now, therefore, I, Lewis B. (a) Kenova Compressor Station, located in Wayne County, West Virginia, together with appurtenant land, structures, measuring and regulating equipment and transmission lines extending from said station to the West Virginia-Kentucky state line on the west bank of the Big Sandy River;

(b) Approximately fifty-three and one-tenth (53.1) miles of natural gas transmission pipe lines ranging in sizes from eight inches to twenty inches in diameter, together with land, land rights, structures and measuring equipment located in Wayne, Gabeil and Lincoln Counties, West Virginia.

The application-declaration states that for the past twelve years the pipe lines east of Kenova Compressor Station have been operated under lease by United Fuel in conjunction with operations of its own properties in the same area. The major portion of the gas pumped by this station has been for the benefit of United Fuel, and for which service United Fuel has paid, and is now paying, a pumping charge. It is stated that present trends indicate that even larger volumes of gas will be pumped for United Fuel in the future and that it is, therefore, desirable that United Fuel acquire direct ownership of this station, together with appurtenant facilities. It is further stated that the benefits resulting from said transaction will consist principally in the transfer of ownership of the properties in question to the company by which they can be most conveniently operated and in the elimination of an intercompany lease agreement.

United Fuel proposes to acquire said properties for cash, at their net book value, as of the date of sale. The gross book value (at original cost) of said properties, as of July 31, 1947, was \$1,783,944.97, and the net book value, after deducting applicable reserves, was \$1,084,924.56.

United Fuel proposes to provide the cash required for the acquisition of said properties by the issue and sale to Columbia of its 3¼% instalment promissory notes, in an amount equal to the net book value of said properties to be acquired by it, or the next lower multiple of \$25,000. The notes to be issued by United Fuel to Columbia are to be unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual instalments on August 15th of each of the years 1950 to 1974, inclusive.

Central Kentucky proposes to apply the proceeds of sale of its West Virginia properties to the extent not required for construction purposes in the near future, to the partial prepayment of 3¼% instalment promissory notes now held by Columbia in the principal amount of \$1,700,000.

The application-declaration states that the Public Service Commission of

the State of West Virginia has jurisdiction over the acquisition by United Fuel of assets of Central Kentucky and over the issuance by United Fuel of its 3¼% notes. It is further stated that the Federal Power Commission has jurisdiction over the acquisition of assets of Central Kentucky by United Fuel.

By the Commission.

part of any person concerned and that the proposed transaction is consistent with the policy of Bankers as recited in its registration statement and reports filed under the act and is consistent with the general purposes of the act.

All interested persons are referred to said application which is on file at the Philadelphia, Pa. offices of this Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time after November 5, 1947, unless prior thereto a hearing on the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than November 3, 1947, at 5:30 p. m., in writing, submit to the Commission his views or any additional facts bearing upon the application or the desirability of a hearing thereon or request the Commission, in writing, that a hearing be held thereon.
